```

Output screens:

The screenshot shows a web browser window with the title 'application form'. The form is divided into three main sections: 'personal info', 'address', and 'training subject'. The 'personal info' section includes fields for name, email, mobile number, gender (radio buttons for male and female), DOB (date picker), and a photo upload button. The 'address' section includes fields for address, state (dropdown menu), and pincode. The 'training subject' section includes checkboxes for html, css, and js. The browser's address bar shows the URL '127.0.0.1:5500/lectures_notes/day3%2026-03-2025/task10.html?'. The Windows taskbar is visible at the bottom, showing the search bar and various application icons.
